### Ratification Meeting.

The Central Committee and Democrats met in the Court House in Logan on Monday at 1 o'clock for the purpose of canvassing the vote of the Primary Election, and declaring the nominees.

The meeting was called to order by chairman D. H. Lappen. Henry N. Sparrow nominated J. B. Dollison as assistant to Secretary A. L. O'Neil in the canvass of the vote.

The returns of the townships and precincts were canvassed in alphabetical order; when Carbon Hill precinct, Ward township, was reached, the chairman announced that no returns had been received. On motion of Henry Sparrow, Carbon Hill was passed and the vote of the other remaining precincts was completed.

It appearing to the satisfaction of all present that the vote of Carbon Hill would not change the result. The candidates named below were declared nominated. (The vote of Carbon Hill was received subsequently, and is incorporated in the tabulated statement published elsewhere.)

The vote was the largest ever cast at a primary in this county, an omen of the interest the Democracy have and the hope of victory they feel in the coming contest.

The candidates and others present made speeches in good spirit and in the best of feeling all around; the convention adjourned.

### THE TICKET.

Probate Judge—J. B. Riason.

Treasurer—J. H. Kline.

Clerk of Court—D. M. O'Hare.

Commissioner—J. W. Smith.

Pros. Attorney—E. O. Pettit.

Infirmary Director—A. A. Wright.

Surveyor—James Davis.

Coroner—John Mathiot.

The candidates are all men of character, capable for offices, and Democrats, true to the party and its principles. With the support of the new

### recruits promised, the ticket will be elected by six hundred majority.

The fight is now on. The leaders have been chosen. The rank and file are organizing. The SENTINEL is at the service of the party as it always has been, and awaits the order of the Committee to move on such intrenchments of the enemy as it may be thought best to attack. Our pencil is sharpened. Our munition of war are abundant. We have no ambivalence.

### Gen. Grosvenor to be in Logan.

We have the news that Gen. Grosvenor will speak in Logan on next Wednesday.

We are glad of it. He is our present congressman and candidate for re-election. His political record in the last congress has been along the trail of the McKinley blaze. He has taken no short cuts, nor dallied in pleasant nooks, but grim and grisly like a dervish on the track of Juggernaut, he has kept on the journey to his political death.

He is on record, when a member of the General Assembly of Ohio, as favoring the coinage of free silver. He is the author of a free silver coinage bill in the late congress. Will he explain why he repudiates his previous record, and why he stands now the advocate of the single gold standard.

The last time he was in Logan, he proclaimed the early completion of the Sleeper railroad, and made the building of that road an issue in the campaign. The railroad has not been built, not a stroke of work done on it since his speech. Was Grosvenor deceived, or was he deceiving the people?

Will he come down to the plain every day issues that stare us in the face, and discuss them? Are you in favor of Free Silver as your legislative record shows you have been, or are you in favor of Free Coinage when the Queen of England gives her approval, as the terms of your "international agreement" platform says you will be.

Are you going to build the Sleeper railroad, and make that promise good?

We are anxious to hear the gesticulations of the Valley declare his position.

### HAMMERS AT FRAUDS AND FASHIONS CONCLUSIONS FROM HIS PHILOSOPHIC FORGE.

Interesting and Suggestive Scintillations From J. L. Y.

We believe with Galileo that the earth moves, and the people with it, and taking Herschel's calculations as true, we move at the rate of 1,000 miles an hour, as the earth is about 24,000 miles in circumference and the tour is made every 24 hours. Hence our imagination begins to be over-powered and bewildered at its conception of magnitude, and we will not vouch any longer that the Republicans nominated Mr. McKinley at St. Louis, and placed the ex-governor into the hydrostatic balance of Archimedes, with the usual hook at the bottom, known as the American Gold Standard, was first exposed by Secretary Foster under Harrison's administration, and which has been the king in our international game of chess ever since, Rothschild, Morgan & Company, reaping the pool amounting to 162 millions of dollars during the last two years, and if Mr. McKinley will be elected, the Wall street syndicate will reap \$324,000,000 more as twice 162 is 324.

We claim that the rapid motion of Mother Earth has caused this gold bug confusion in the heads of our Republican ring masters, as even our esteemed
